ONI DECLASSIFICATION/RELEASE INSTRUCTIONS ON FILE

Weekly Log, Office of Intelligence Coordination

Interdepartment Committee on Foreign Language Reference Materials

Office representatives from within the Agency generally are in support of the proposal to establish an interdepartmental committee on foreign language reference materials. OIC requested, however, that before this proposal is moved any further, we should know which of these functions are already being performed by FDD and specifically what additional administrative burden the Agency would acquire as a result of this proposal. Information on these questions is being prepared before any further action is taken.

Travel

25X1A9a

██████████ and I discussed with Mr. Sheldon measures which we thought would improve the area familiarization program. Specific items which we agreed to work on are:

- a. State briefing of OCI personnel going on area familiarization tours.
- b. Opportunity for State to talk with personnel returning from such tours.
- c. Clarification of certain points in OCI briefing, such as making certain that no such trips are undertaken with the notion that they are for the purpose of inspecting Foreign Service Posts, peripheral or otherwise.

Security Information

Weekly Log

Service Abroad for CIA
Officials for DD/I Area

Attached is a memorandum received from State which contains positive proposal for mutual beneficial utilization of CIA overt personnel abroad. This as you will note is submitted for our informal information.

I believe this is sound and has real possibilities.

Projected Work Targets

a. OIC is sitting down with OCD and I&S to go over the foreign dissemination problem to see whether further steps can and need be taken in this area.

b. OO has requested that we proceed now with interagency consultation to get an NSCID for FDD though [redacted] suggested this be held up pending his return from vacation in three weeks. 25X1A9a

I doubt that we are clear as to the criteria of service of common concern or that we have looked sharply at the benefits or, conversely, hazards, incident to the naming of a service of common concern. We intend, therefore, before going to the other agencies to present to you with OO's collaboration a specific statement on the FDD NSCID with recommendation.

c. OIC plans to attend a meeting, Tuesday, 19 August, called by Captain Stephen Jones of ONI to discuss with interested agencies plans for establishment of cable and telephone censorship in the event of war.

DCID 3/4 - Scientific
and Technical

Copies of the DCID 3/4 as approved by the IAC on Thursday are being made and given normal IAC dissemination.

JAMES Q. REBER
